To whom it may concern,

Letter of appreciation and certification of project participation

I wish to express my sincere appreciation to the Department of Information Technology, Advanced Technological Institute, Galle, for its contribution towards the design, development, testing, implementation, and documentation of two healthcare information systems for the National Hospital, Karapitiya, Galle.

The projects were carried out by a team of students under the guidance and supervision of Senior Lecturer Mr. K.M.G. Thamara Rangana Waidyarathna, who served as the Head of the Department of Information Technology and Director of the Advanced Technological Institute, Galle, during the project period.

The systems were developed to support the digitalization of antibiotic usage monitoring, antimicrobial resistance analysis, and data-driven healthcare decision-making.

- Project 01: MediQ – Antibiotic Usage Analysis System - Project Period: December 2024 – December 2025. The system supports antibiotic release and distribution management, ward and stock usage monitoring, antibiotic records management, usage analysis, and report generation.
- Project 02: MediQ – Cumulative Antibigram Analysis System - Project Period: May 2025 – December 2025. The system supports cumulative antibiogram analysis, antimicrobial susceptibility and resistance analysis, organism–antibiotic susceptibility analysis, historical data analysis, dynamic filtering, data importing, and report generation.

I would like to express my wishes and gratitude for the following students participated in the development of the above project.

- K.G.M. Tishamal - NIC: 200302202615, Registration No.: GAL/IT/2324/F/0009 - Role: Project Lead and Primary Software Developer
